EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Schmid on June 5, 2007.

2. The application has been amended as follows:

In claim 1, lines 9 and 10,

replace "(c) neutralizing the treated fabric to a pH between 6.5 to about 7.5 to form a neutralized fabric"

with – (c) neutralizing the treated fabric in a basic wash bath and forming a neutral fabric whereby the potential for reaction reversal and polymer washout is eliminated –

(basis for amendment, page 2, paragraph 0023)

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: The claims are allowable over the prior art of record, Vigo et al. (US 4,908,238), Vigo et al. (US 4,851,291), and the Vigo articles, "Multipurpose woven cotton and cotton/polyester blends containing crosslinked polyols affixed by a low temperature cure" and

Art Unit: 1751

"Improvement of various properties of fiber surfaces containing crosslinked polyethylene glycols", because the prior art do not teach or fairly suggest neutralizing the treated fabrics to a pH between 6.5 to about 7.5.

4. The declaration under 37 CFR 1.132 filed May 16, 2007 provides a showing that the Vigo methods do not sufficiently neutralize fabrics resulting in a reversal of the polyethylene glycol reaction on the fabric and subsequently pooling of the polyethylene glycol off of the fabric. The instant methods provide superior retention of the polyethylene glycol on the fabrics and no pooling due to complete neutralization to a pH of 6.5-7.5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
